Q10

Multi-user cash register with advanced features

All the advanced features that make this ULTRA ALL-IN-ONE cash register a state-of-the-art tool and a professional response to even the most sophisticated needs

IQ 10

IQ 10 is the complete ULTRA ALL-IN-ONE checkout point that includes, in the smallest space, all the necessary peripherals and the most advanced functions for the professional management of the checkout point, ideal for any type of business, even for dynamic and complex contexts.

Dedicated professional software with a very wide range of functions, speed and computing power, an extremely intuitive graphic interface, all the services of the Labware Cloud: unbeatable performance!

In addition to this, you can create a complete system by adding Labware terminals.

2x Ethernet

4x USB Host

Wi-Fi Module (optional)

Drawer opening

3G / 4G (optional)

Nano PDAs (wireless)

IQ Self

IQ Kitchen

IQ Display

- Connection to DOT printers via USB and Bluetooth®
- Connection to PDAs for waiters
- Connection to barcode reader
- 9" or 4" colour graphic display
- Wi-Fi
- Rear graphic customisation

Connectivity

Ethernet, USB, Wi-Fi, and wireless module with Bluetooth® technology for easy connection to PDAs and printers.

TFT colour customer graphic display

A unique innovation in the market: for the first time, IQ adds colour to the checkout point screen!
Give your customers a clear view of transactions and offer a pleasant experience with the TFT colour graphic display on the customer side, with wide-angle view.
Display the **QR code** for the **Digital Receipt**.

10"

10" High Resolution Display

With high brightness LED backlighting, 16 million colours, equipped with IPS technology that guarantees true and accurate colour reproduction and a wide-angle view.

Multi-touch screen or capacitive projection

Supports up to 10 touch points, gesture capability, unlimited touch duration.
The true-flat front glass is easy to clean, strong and scratch-resistant.

Machine status indicator light

High-quality integrated printer

World's first printer with rotating lid opening, a jewel of technology! Automatic cutter (1 million cuts), high print speed, high quality thermal head, anti-jam system for super reliable performance. Quick paper loading and large rolls (80/78) simplify changing.

ELEGANT, VERSATILE, CUSTOMISED!

A real touch of elegance and uniqueness! A customised cover (simple sticker or special materials such as leather, jeans, alcantara) can be applied on the customer's side, made especially for the shopkeeper, with his/her logo and brand colours.

CLOUD 4CO

The included 4C0 Cloud Office account provides advanced features for the point of sale and data that is always accessible and always up-to-date, without additional effort!
Offering complete business insight with optional modules (stock, sales, profits, employees and more), real-time reporting and analysis tools, 4CO helps you make decisions in the fastest, most efficient, reliable way to grow your business and profitability.

COMPLETE CONTROL OF THE POINT OF SALE WITH THE MY BASIQ APP

The My Basiq App (for iOS and Android) offers the most complete management experience. It allows you to check the progress of the point of sale, from the comfort of your home or from anywhere else.
