nano

**Super-compact and powerful,
the professional PDA for a perfect service!**

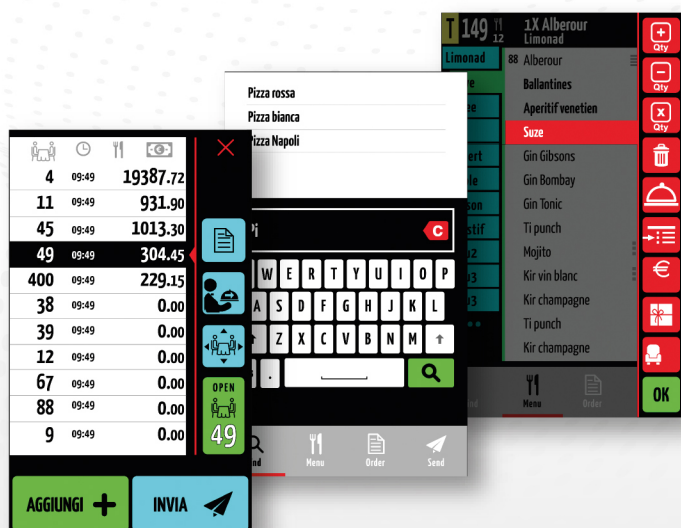

With a super-compact and ergonomic design, Nano incorporates advanced features that speed up and simplify the waiter's work. The key to excellent service, right in the palm of your hand!

Nano automatically makes service faster, easier and more reliable!

Specially created for the IQ Line, the new version of the Nano PDA is the key to efficient workflow and fast, reliable order taking, with maximum flexibility.

All of Nano's features have been specially designed with the needs of the catering industry in mind, focusing on the idea of usability, ensuring intuitive navigation, a smooth user experience and unprecedented battery life!

Intuitive software and complete features

Developed by Labware according to the needs of the waiter's daily work, the software speeds up and optimises order taking. Simple, straightforward graphics, with great attention to detail, and an extremely intuitive interface and features means that Nano can be used by anyone with minimal learning time.

- Simplified order editing
- Easy even with one hand
- Order/notes mode
- Many quick actions
- Find an article in a few clicks
- Manage Tables and Counter
- Automatic database/menu synchronisation with the IQ system
- Easy display with the possibility of zooming in on the screen

Screen visible even under the sun

With excellent brightness that ensures excellent visibility in all environments

Capacitive touch

The advanced and sensitive touch screen allows you to move between menu pages quickly and smoothly, and allows for quick gestures (scroll/swipe)

Super-compact and light

It fits perfectly in the palm of your hand, or in your shirt pocket, and weighs only 150 grams.

New elegant and ergonomic design

Sleek and modern lines, with redesigned ergonomics to ensure a perfect grip and high comfort even after long work shifts.

Instant power on

Easily accessible power button, with instant ON/OFF, immediately ready for use!

Long distance Bluetooth® communication

Ultra-stable and secure connection up to 200 m outdoors and 50 m indoors, single or multi-room, multi-zone, even if the restaurant consists of several floors.

Unbeatable autonomy: forget about recharging!

The ultra-high capacity battery, a smart dimming system (via flag, 10 sec., 2 min., 2 hours) and the fast charging function (USB-C) allow you to work without worries and without interruptions. And in full power-off mode, the new Nano can maintain the battery level throughout the long working day.

Sturdy and reliable

Shock-resistant with a special rubber bumper around the edges, protected against dust and water splashes, Nano works even if used with wet hands and it is designed to last for a long time, even in the tough conditions typical of the catering industry.
